《 PSL: PARALLEL SLALOM 》

A group of 2 people at the same time slide down the course with banners installed (around 13 meters between banners) to compete for time. Among the alpine games, the course is the shortest (altitude difference 180 to 220m), and there are many banners (about 55 to 75).

"Parallel" means a competition in which two athletes slide on parallel courses at the same time.

The rotation requires a finer rhythmic turn than the large rotation.

《 GL:GIANT SLALOM 》

Make a big turn on the course with banners installed (around 23m between banners) to compete for time.

The course is longer than slalom. (Altitude difference 300 to 450m), few banners (approx. 39).

High-speed runs and turn technologies are required, which can be said that the basic form of the Alpine competition.
